

HD CLEAR

Accepting Imperfections

HD Clear was formulated for acne and general skin health. Its major ingredient, Black Cumin seed, is not an essential oil, but has trace amounts of essential oil within it. Black Cumin is prized in many Islamic countries for its healing properties. HD Clear combines the healing properties of Black Cumin with other essential oils.

HD Clear emotionally supports those with suppressed anger, guilt, and self-judgment. Individuals in need of this blend may harbor feelings of guilt or anger from the past. These deeply buried feelings may exist outside their conscious awareness. Yet these feelings of pain or anger literally "boil" to the surface. If individuals do not deal with these feelings appropriately, they may manifest through lashing out or blaming others.

This blend supports individuals by increasing self-acceptance and self-love. It assists them in seeing their inherent worth, regardless of physical appearance. It encourages the healthy release and expression of feelings of anger. HD Clear invites individuals to look past imperfections and to replace self-judgment with self-acceptance.

INGREDIENTS: Black Cumin, Ho Wood, Melaleuca, Litsea, Eucalyptus, and Geranium

NEGATIVE EMOTIONS: Emotional pain, angry, self-judgment, concealing, suppressing, blaming

POSITIVE PROPERTIES: Self-acceptance, self-love, worthy, healthy expression, self-aware

SUGGESTED USES:

Aromatic: Inhale from bottle, diffuse, or place drops in hand, rub, and inhale.

Topical: Apply anywhere body needs additional love and approval.
